WHO ARE WE?

"B-ECO Start-up Eco Entrepreneurs Project" is an **Erasmus Plus project** which aims to identify innovative learning methods to improve the competencies and skills of VET trainers (Vocational Education and Training) and those who want to work in the eco-entrepreneurial sector.

The project targets **young entrepreneurs, unemployed people, and start-ups**.

Six partners: **University of Maribor** from Slovenia, **Euphoria Net** from Italy, **Lovila Limited** from Cyprus, **Centre For Education And Entrepreneurship Support (CWEP)** from Poland, **Epralima Vocational Training School** from Portugal, and **EUROTraining** from Greece will contribute with their wide experience in finding **best practices, case studies, lessons, and future opportunities**.

2021-1-SI01-KA220-VET-000033038

OUR OBJECTIVES

The transition to a green economy requires a new figure: the **green and eco-entrepreneur**, focused on the development of entrepreneurship linked to sustainability.

The project intends to create an innovative methodology that will change how entrepreneurship is taught thanks to a **green approach**, developing an entrepreneurial mindset towards green and sustainable business.

It will provide **practical management training** for training providers from partner countries focused on eco-entrepreneurship, innovation, and management of eco-businesses, and a new and **innovative e-learning platform** oriented to create a unique space for sharing knowledge and experiences among course participants.

WHAT WILL WE DO?

As results of our project, we will develop:

 an **Eco-Entrepreneurs Training Course**

 **Didactic Materials for VET Teachers and Trainers**

 a **Social Eco E-Learning Platform**

 a **Case Studies Collection** of successful eco-entrepreneurial businesses examples.

The competencies and skills taught by the programme will be complemented by a **learning methodology** called **B-ECO Branches**, which will focus on the development of sustainability related to entrepreneurship.
